

## LEO - Shipping Information

LEO, we pride ourselves on offering a variety of shipping methods to suit your needs. Whether you require quick delivery or are more focused on cost-efficiency, we have a solution for you. Our eco-friendly packaging options are designed to minimize environmental impact while ensuring your products arrive safely.

**We partner with trusted carriers** to provide reliable and timely deliveries.

For bulk orders, we offer specialised shipping solutions to accommodate larger quantities without compromising on speed or safety. Subject to export regulations, we will provide you with the necessary capital goods in accordance with your company's wishes in a timely manner, with world-class certification, in a way that does not harm the environment. We are committed to working with your company with confidence and commitment. And our company is about to take part in the production of materials for many new types of packaging.

LEO~ understands that every business has unique needs when it comes to packaging and shipping. That's why we offer custom packaging solutions tailored to your specific requirements. Whether it's the size, shape, or material, our team works closely with you to create the perfect packaging for your products. For businesses that require large quantities, our bulk packaging supplies provide cost-effective options without sacrificing quality. Our efficient shipping processes ensure that even the largest orders are handled with care and delivered promptly.
